

Ancestors of Blood Invocation

Those that have come before us.

Those that through their struggle and sacrifice, paved the way for a better life for their descendants.

Those that intimately connected, even if only for a brief time, and bore children.

And those children bore children.

And those children bore children. And eventually, those children bore us, the living people.

Ancestors of Blood, we know you are there!

You must be, for without you, we could not be!

Ancestors of Blood, we come together tonight to give honor to you.

Hear our call and look fondly upon us.

Join us as we celebrate the lives you lived

And the continued love and protection you give us From beyond the Gates in the Underworld.

Ancestors of Blood, We call to you!
